VOLUMEN 47

Issue 1—2 (pag. 1—188) edit: 15— VI—1972
Issue 3 (pag. 189—315) edit: 7— VIII—1972
Issue 4 (pag. 317—381) edit: 15— IX—1972

CONTENTS

J. R. Powell, Jr. W. W. Scott & N. R. Krieg: Physiological parameters of growth in *Saprolegnia parasitica* Coker. *Div. of Biol. Sci., Pennsylvania Cool. of Optometry, Philadelphia, Pa.* 19141 1

B. Rani Mehrotra & R. K. Kakkar: Ecological study of soil fungi of an agricultural field in Allahabad. 58, *Khushal Parbat, Allagabad, India* 41

Kamal & K. S. Bhargava: Studies on soil fungi from teak forests of Gorakhpur II. A contribution to indian aspergilli. *Dept. of Bot. Univ. of Gorakhpur, India* 59

I. A. Conti-Diaz & M. L. Furcolow: Susceptibility of hamsters and mice to *Paracoccidioide brasiliensis* using different routes of inoculation. *Departamento de Parasitologia Instituto de Higiene, Montevideo, Uruguay* 73

R. B. Rajendren: Development and parasitism in the genus *Hemileia* (uredinales). 1407 *N. Cleveland Ave., St. Paul, Minnesota* 55108, *U.S.A.* 81

K. Naguib, I. A. Al-Sohaily & A. S. Al- Sultan: On mycological fat production from Iraqi date extract: the Dibis. *Bot. Dept., Fac. of Sci., Cairo Univ., Egypt, U.A.R.* 93

A. G. Smith & P. A. Rohde: A new technique for isolating pathogenic fungi from mixed flora inocula. *Dept. of Mec. Microbiol., The Univ. of Vermont, Burlington, Vermont* 05401, *U.S.A.* 105

M. Fisher & A. M. Sher: Virulence of Trichophyton mentagrophytes infecting steroid-treated guinea pigs. *Dept. of Medicine, Albert Einstein Coll. of Medicine, Bronx, New-York* 10461 121

I. Alteras: Tinea capitis by *Microsporon gypseum. Centrul Dermato-venerologie, str. Dr. Grozovici I, Bucuresti, Romania* 129

I. McVeigh & W. E. Houston: Factors affecting mycelial to yeast phase conversion and growth of the yeast phase of *Histoplasma capsulatum.* 8015 *Orange Plank Drive, Springfield, Virginia* 22152, *U.S.A.* 135

A. A. Lepidi, M. P. Nuti, M. de Bertoldi & M. Santulli: Classification of the genus *Humicola Traaen*: II. The DNA base composition of some strains within the genus. *Istituto di Microbiologia agraria, Universita di Pisa, Italy* . 153

P. C. Gimenez & E. Stal: Growth of the yeast *Torulopsis candida* on n-alkanes. *Nat. Inst. of Technol., Rio de Janeiro, Brasil* 164

Z. Thaddeus Mankowski: Occurence of lymphomas and lupus erythematosus-like syndrome in the course of experimental *Candida albicans* infection in mice. *Western Inst. for Cancer and Leukemia Res. Santa Monica, Calif.* 90404, *U.S.A.* 167

Libri Novi 183

ANNOUNCEMENT 188

Gallery of Contemporary noted mycologists Nr. 414, 415, 416, 417

Z. Thaddeus Mankowski: Increased carbohydrate content in the thymus and spleen in mice receiving *Candida albicans* orally (occurence of lymphomas). *Western Inst. for Cancer and Leukemia Res., Santa Monica, California* 90404, *U.S.A.* 189

M. S. Pavgi: Morphology and taxonomy of the *Puccinia* species on corn and sorghum. *Fac. of Agric., Banaras Hindu Univ., India* 207

J. P. van der Walt, D. B. Scott & **Wilhelmina C. van der Klift**: Six new *Candida* species from South African sources. *S. African Council for Sci. and Ind. Res., Pretoria, S. Africa* 221

D. C. Kelly & **G. J. Plumberg**: Experimental technique for growth of *Trichophyton mentagrophytes* on fabric. *Coll. of Veterinary Med., Kansas State Univ. Manhattan* 66502, *U. S. A.* 237

Z. L. Butt & **A. Ghaffar**: Inhibition of fungi, actinomycetes and bacteria by *Stachybotrys atra. Bot. Dept., The University, Karachi, Pakistan* 241

K. L. Kothari & **A. C. Verma**: Germination of conidia of poppy powdery mildew (*Erysiphe polygoni* DC). *Dept. of Plant Pathol., Univ. of Udaipur, India* 253

A. H. Moubasher, **M. A. Elnaghy** & **S. I. Abdel-Hafez:** Studies on the fungus flora of three grains in Egypt. *Bot. Dept., The Univ., Assiut, Egypt* . 261

C. Marcano & **M. Feo**: Investigacion de levaduras en vulva y vagina. *Inst. de Medicina Tropical, Universidad Central de Venezuela, Caracas, Venezuela* . 275

P. M. Cino & **R. P. Tewari**: Chemical composition of *Histoplasma capsulatum. Dept. of Bacteriol., Rutgers Univ., New Brunswick, New Jersey* 08903, *U. S. A.* 285

S. O. Alasoadura & **S. A. Visser**: Pigment study of *Sphaerobolus stellatus. Dept. of Bot., Univ. of Ibadan, Nigeria* 295

S. O. Alasoadura & **S. A. Visser**: The pigments of *Sphaerobolus stellatus* (Tode) Pers. *Dept. of Bot., Univ. of Ibadan, Nigeria* 301

H. M. Dembitzer, I. Buza, M. D. & **F. Reiss**: Biological and electron microscopic changes in gamma radiated *Cryptococcus neoformans. Med. Div., Montefiore Hosp. and Med. Center, Bronx, New York* 10467, *U. S. A.* 307

H. L. Lloyd: Alternaria leaf spot of tobacco II. Independent segregation of morphological and virulence traits in conidial populations of *Alternaria tenuis* Nees. *Div. of Biol. Sci., Univ. of Rhodesia, Salisbury* 317

A. A. Azad & M. A. Hannan: Dark-recovery of Gamma- and UV-irradiated *Saccharomyces carlsbergensis* at 4° C. *Atomic Energy Centre, Dacca, Bangladesh* 323

D. Allsopp & H. O. W. Eggins: A demonstration of the effects of substrate screening on the colonisation and decay of cotton textiles in soil burial tests. *Dept. Biol. Sci., Univ. of Aston, Birmingham* 331

J. Shreemali: Influence of nitrogen nutritions on asexual reproduction of five species *Sphaeropsis* Sacc. in culture. *P. G. Dept. of Bot., Bhagalpur, India* 337

R. Kodousek & M. Hejtmánek: Some morphological observations concerning problems of endosporulation in *Emmonsia crescens*-aetiological agent in adiaspiromycosis. *Dept. Pathol., Palacký Univ., 5 Olomouc, Czechoslovakia* 343

R. R. Mishra & V. B. Srivastava: Aeromycology of Gorakhpur V. Air spora over wheat and barley fields. *Dept. of Bot., Univ. of Gorakhpur, India* . . . 349

H. Gemeinhardt: Isolations of *Trichophyton soudanense* Joyeux (1912) in Berlin. *Dept. of Parasitol. and Mycol., Hygiene Inst., Berlin* 357

B. S. Sais, S. B. Singh, D. R. Singh & D. V. Singh: Sulphur and phosphorus requirements of *Curvularia pallescens* Boed. *Dept. of Plant Pathol., Govt. Agric. Coll., Kanpur, U. P., India* 363

M. Öner: A contribution to the knowledge of common Turkish higher fungi. *General Bot. Dept., Univ. of Ege, Izmir, Turkey* 369
